

World leader in components for heavy industry

- 100% employee-owned (ESOP)
- ISO 9001, ISO 14001 registered
- Member of AGMA, AIST, ASME, ASM, MHI

- In-house engineering, manufacturing & heat treating
- Service support

Gearing & Gearboxes

- Complete gearboxes & industrial gearing (new and reconditioned)
- Reverse engineering of legacy parts
- 3D scan + FEA
- AGMA Class 15 capability
- TSP Carburized & through-hardened
- On-site inspection & failure analysis
- Engineering support for installation, alignment & startup

Hardened Steel Wheels & Wheel Assemblies

- Crane, brake & sheave wheels – machined & treated in-house
- Contour case hardened & TSP hardened options
- New & reconditioned wheel assemblies

Gear Spindle Couplings & Universal Joints

- Custom-engineered spindle couplings & universal joints
- Heavy-duty, application-specific designs
- All wear components are TSP Carburized
- New builds & reconditioning

Roll Products

- Forged & specialty rolls for rolling mills
- New rolls, remake & rehardening
- Bemcalloy™ & X-Armor™ pinch rolls (Xtek exclusive)
- Specialty rolls for industrial processing

DELIVERING INDUSTRIAL MANUFACTURING REPAIR & FIELD SERVICE SOLUTIONS

Below-the-Hook Lifting & Floor-Based Equipment

- Mill duty lifting devices & special equipment
- Solutions for coil, sheet, plate, slab, roll bundle & specialty products
- Automation ready lifters, AGVs, transfer cars
- C hooks, coil grabs, lifting beams, tongs & crane attachment
- Floor-based systems for moving heavy loads
- Licensed engineering support
- Inspection load testing, in-house repair & reconditioning service

Field Service*

- Field service support for heavy industry
- Millwright, mechanical, welding services
- Portable machining & on-site repair
- In-house machining, welding & fabrication
- Emergency breakdown response & planned outage support
